Mitch Glaser, President, Chosen People Ministries: “God is moving among second-generation Israeli young believers who are actively proclaiming the message of Messiah among their friends, and many are coming to faith in Yeshua the Messiah! ¹ Yn 2.15-17 **Do not love the world or the things of the world. If someone loves the world, then love for the Father is not in him; because all the things of the world — the desires of the old nature, the desires of the eyes, and the pretensions of life — are not from the Father but from the world. And the world is passing away, along with its desires. But whoever does God’s will remains forever. Mattityahu (Matthew) 24:1 As Yeshua left the Temple and was going away, his *talmidim* came and called his attention to its buildings.

Mark 13.1 As Yeshua came out of the Temple, one of the *talmidim* said to him, “Look, Rabbi! What huge stones! What magnificent buildings!”

Luke 21.5 Some people were remarking about the Temple, how beautiful its stonework and memorial decorations were. *[I didn't really have a good perspective on this until this study ...]*

Made of marble and gold, Herod's temple was taller than a fifteen-story building. Built on the exact location of Solomon's temple and the temple Nehemiah constructed, it could accommodate hundreds of thousands of pilgrims at one time and was twice as large as

the largest temple enclosure in Rome.

Mattityahu (Matthew) 24:2-3 But he answered them, “You see all these? Yes! I tell you, they will be totally destroyed — not a single stone will be left standing!” When he was sitting on the Mount of Olives, the *talmidim* came to him privately. “Tell us,” they said, “when will these things happen? And what will be the sign that you are coming, and that the *‘olam hazeh* is ending?”

The French leadership under Emmanuel Macron used the recent riots to usher in new policies of mass government surveillance. News headlines in France have said that every phone in the country can now be used as a spying device by police. But this actually goes further—the measures include computers and other devices as well.

Implant

Our brain-computer interface is fully implantable, cosmetically invisible, and designed to let you control a computer or mobile device anywhere you go.

The N1 Implant records neural activity through 1024 electrodes distributed across 64 threads. These highly-flexible, ultra-thin threads are key to minimize damage during implantation and beyond.

Neuralink employees told Reuters last year that the company was rushing and botching surgeries on monkeys, pigs and sheep, resulting in more animal deaths than necessary, as Musk pressured staff to receive FDA approval. The animal experiments produced data intended to support the company's application for human trials, the sources said.

Second seduction

The consequences continue.

*No-tsayr khe-sed a-ah-la-feem,
 no-say ah-von v'feh-shah v'kha-ta-ah*

- [Forgiving offenses (nosei avon) Avon refers to intentional sin, which God forgives if the sinner turns back to him.
- Crimes (pesha)—Pesha is sin with malicious intent, rebellion against God. God allows teshuva, turning back, leading to forgiveness even for this.
- And sins (v'hata'ah)—And God forgives sins committed out of carelessness, thoughtlessness, or apathy.

Shmot/Ex 34.7 but causing the negative effects of the parents' offenses to be experienced by their children and grandchildren, and even by the **third and fourth generations**.

Science illustration and digression...

Epigenetics

Genetics is the study of DNA sequences. 4 nucleic acids are the alphabet of life: C A T G
Cytosine, adenine, thiamine, guanine

Genetics, DNA cannot be changed by behavior. But the molecules surrounding the DNA [epi] can be changed.

Environmental stress [and sin] has been shown to increase the risk of substance use. In an attempt to cope with stress, alcohol and drugs can be used as an escape. Once substance use commences, however, **epigenetic** alterations may further exacerbate the biological and behavioral changes associated with addiction. *[Once aberrant behavior, hormonal activity occurs, epigenetic alterations may exacerbate the biological. So, it SEEMS to be a genetic tendency, but]*

Even short-term substance use can produce long-lasting epigenetic changes in the brain of rodents, via **DNA methylation and histone modification**

[http://en.wikipedia.org/wiki/Behavioral_epigenetics]

Four colors are the four nucleic acids, guanine, cytosine, adenine, thiamine. Controlling components, alphabet of life. Determines if an organism is a fish or an elephant. All have the same DNA alphabet.

Epigenetics doesn't change the underlying guanine, cytosine, adenine, thiamine. But DOES affect expressions: on/off switch. Behavior of past generations affects your tendency to behave a certain way. TENDENCY. Sins of our ancestors can make a proclivity in us. BUT ancestors added it on by willful behavior, we can overcome by willful choices.

So, someone can appear to be genetically prone to sin: alcoholism, homosexuality, drugs. But they are only epigenetically prone to the sin.

[We can bring the epigenetic tendencies in; we can bring them out. Gone in 3 or 4 generations!]

In **biology**, and specifically **genetics**, **epigenetics** is the study of **inherited** changes in **phenotype** (appearance) or **gene expression** caused by mechanisms other than changes in the underlying **DNA** sequence, hence the name *epi-* (Greek: *επί-* over, above) **-genetics**. These changes may remain through **cell divisions** for the remainder of the cell's life and may also last for multiple generations.

“third or fourth generation ... ”

So, someone can appear to be **genetically** prone to a behavior: alcoholism, homosexuality, drugs. But they are only **epigenetically** prone to the behavior.

[We can bring the epigenetic tendencies in; we can bring them out.

Gone in 3 or 4 generations!]

Exodus 34:7 Showing grace to the thousandth generation, forgiving offenses, crimes, and sins ...

- Forgiving offenses (*nosei avon*) *Avon* refers to intentional sin, which God forgives if the sinner turns back to him.
- Crimes (*pesha*)—*Pesha* is sin with malicious intent, rebellion against God. God allows *teshuvah*, turning back, leading to forgiveness even for this.
- And sins (*v'hata'ah*)—And God forgives sins committed out of carelessness, thoughtlessness, or apathy.

Fourth seduction

Another greatly accepted deception: that the unborn are just a blob of tissue.

See https://www.youtube.com/watch?v=4TQVwNjz_cY

[Without G-d and religion, there is nothing to back up the sanctity of human life.]

Summary of seductions:

1. Technology
2. drugs,
3. “genetic” sexual identity
4. abortion.

Repentance/teshuvah: A strong tendency to alcoholism, smoking, sexual preferences can be built in to the nature of the succeeding generations. But those are tendencies caused by behavior and choices of the forebears, and can be reversed by the behavior and choices of the descendants.

Receiving the Ruakh/ the Holy Spirit

[<http://www.craigladams.com/Steele/>]

The fulness of the Holy Spirit in rabbi and people will always insure a correct theology. St. John in his First Epistle, ii. 20-27, regards the anointing or full immersion of the Spirit as the great safeguard against being drawn away by the falsity of anti-Messiah.

Says Dr. Whedon:

The word 'Messiah' signified anointed, as '*mashiakh*'

signifies oil, or the anointment. Here the anointing is used in contrast to the anti-Messiahs who became such because they had no such sanctifying anointing. As long as we possess the holy anointing, we will adhere to the holy Messiah.
