Israeli Trauma Coalition has landed in Pittsburgh, PA. The delegation is made up of Israeli experts, who have international experience in two main areas. The first is therapeutic: a specialization in mental trauma, grief and anxiety. They will accompany families and law enforcement agencies that help the population. Second: a community-based support group which seeks to help communities that have experienced crisis.

When a loved one dies, Jewish religious law requires that representatives of the living accompany the body until burial. In a ritual known as tahara, the remains are carefully washed and placed in a white shroud. Jewish law mandates that the burial take place as soon as possible. Recovering and preparing a body for burial are traditionally done by the local chapter of the burial society called Chevra Kadisha, led in Pittsburgh by an Orthodox rabbi, Daniel Wasserman. He works alongside Admon, who, as a member of Israel-based Zaka International, spent many years in his home country recovering bodies at the scenes of accidents and terrorist attacks. Inside the desecrated temple, the men donned white forensic coveralls, face masks and gloves, and set to work.

Judaism asks the living to take special care of the dead, and this group had a last, sacred duty to fulfill: gather up every drop of blood and other bodily traces of the 11 people killed in the deadliest attack against Jews in U.S. history.

*Serious challenging times. How do we respond? Any lesson in the continuing study in Matityahu, story of the bridesmaids?]*

Mattityahu (Matthew) 25:8

מְרוּ הַפְּסִילוֹת לְנִבּוֹנוֹת, 'תִּתֶנָּה לָנוּ מִן הַשֶּׁמֶן שְׁלָכֶם, כִּי מְנוֹרוֹתֵינוּ דוֹעֵכוֹת.'

"The foolish ones said to the sensible ones, 'Give us some of your oil, because our lamps are going out.'

*[No one has oil to spare.*

*Gill: to ask their grace of them was exceeding foolish; when grace only comes from God, who is the God of all grace.]*

Mattityahu (Matthew) 25:9

עָנוּ הַנְּבוֹנוֹת וְאָמְרוּ, 'שָׁמָּא לֹא יִסְפִּיק לָנוּ וְלָכֶם. לִכְנָה אֶל הַמוֹכְרִים וּקְנִינָה בְּשִׁבְלֵכֶם.'

"'No,' they replied, 'there may not be enough for both you and us. Go to the oil dealers and buy some for yourselves.'

*[NO: (literary) in case, so as not to]*

Mattityahu (Matthew) 25:10

בְּשָׁעָה שֶׁהָלְכוּ לִקְנוֹת בָּא הַחַתָּן : הָעֲלָמוֹת הַמוֹכְנוֹת נִכְנסוּ אֵתוֹ לַחֲתֻנָּה וְהַדֶּלֶת נִסְגְּרָה.

"But as they were going off to buy, the bridegroom came. Those who were ready went with him to the wedding feast, and the door was shut."

Why did the wise bridesmaids say such an emphatic "NO!"

1. Lack of compassion?
2. Lack of generosity?
3. an uncivil, morose, and churlish disposition?
4. being unconcerned what became of these persons?

Craig Keener: If they shared their oil, then it could have been that ALL the torches would go out, ruining the whole procession.

Arguably, they showed the same spirit, as Paul and Barnabas did, when the Lystrians were going to sacrifice to them. Moreover, this denial arose from a consciousness of insufficiency to help them.

Bridal processions took precedence over

1. Rabbinic lectures, so all could hail the passing bride
2. Recitation of the Shma <sup>Dvarim 6.7</sup> "when you lie down and when you rise up" detailed interp

*[Keener, p 598*

*1. Rabbi would stop the class, and turn the attention of his talmidim/students to the procession, to cheer!]*

Sukkah 25b **Where the time to recite *Shema* had already arrived during the wedding ... it is necessary to teach that the groom is exempt ... The exemption from *Shema* is due to the fact that it is not a stringent mitzva, as there is no *karet* administered to one who fails to fulfill it.**  
[\[https://www.jcfhartford.org/Learn/JCFBlog/tabid/256/PostID/42/A-Wedding-and-A-Funeral.aspx\]](https://www.jcfhartford.org/Learn/JCFBlog/tabid/256/PostID/42/A-Wedding-and-A-Funeral.aspx)

Bridal processions took precedence over  
3. Funeral processions  
*[Keener, p 598]*

There is a story in the Talmud of two processions – a wedding procession and a funeral procession – that meet at an intersection too narrow to allow both to pass. One of the processions will need to step aside to allow the other to progress; but which one should go first? The rabbis concluded that the wedding procession should get the right of way. Why? Because hope and optimism about the future (as represented by the bride and groom) should always take precedence over the past.  
[\[https://www.jcfhartford.org/Learn/JCFBlog/tabid/256/PostID/42/A-Wedding-and-A-Funeral.aspx\]](https://www.jcfhartford.org/Learn/JCFBlog/tabid/256/PostID/42/A-Wedding-and-A-Funeral.aspx)

Rabbinic interpretation is that G-d Himself officiated at the wedding of Adam and Khavah [Eve].  
Ber.Gen. 1.27-28 **God created humankind in His image, in the image of God He created him, male and female He created them. God blessed them and God said to them, “Be fruitful and multiply, fill the land, and conquer it. Rule over the fish of the sea, the flying creatures of the sky, and over every animal that crawls on the land.”**  
*[Officiant blessing and commissioning]*

Ber/Gen 2.22-23 **Adonai Elohim built the rib, which He had taken from the man, into a woman. Then He brought her to the man. Then the man said, “This one, at last, is bone of my bones and flesh from my flesh. This one is called woman, for from man was taken this one.”**  
*[Divine procession and Adam’s response]*

Participating in the procession was a **great honor** for these twelve to sixteen year olds. Spoiling the procession would be a great dishonor to the bride, groom, family, guests!!  
**A great insult!**

Therefore, sharing oil and risking ruining the bridal procession was **properly refused**.

Lesson to us:

It’s OK to say, “NO” to seemingly legitimate requests for compassion that could be ruinous.

**PRIORITIES.**

*[Counter-cultural priorities]*

It hasn't stopped.

Dr. Abeer Kayed, a US-based professor of political science, went on TV only a day after the worst anti-Semitic attack in US history and blamed “the media” for distorting the motive behind the Pittsburgh synagogue massacre of 11 Jewish worshipers, which she claims was “strictly political” and “not a hate crime.” Kayed further alleged that “the power of the Zionist lobby” is to blame, referring to the “the historical significance of the role of the Jews in American life.”

## Application #1: Not to fear rising anti-Semitism

### Why the rising anti-Semitism?

Rev 12.7,10-12

And war broke out in heaven...the accuser of our brothers and sisters — the one who accuses them before our God day and night — has been thrown out. They overcame him by the blood of the Lamb and by the word of their testimony, and they did not love their lives even in the face of death. Therefore rejoice, O heavens, and you who dwell in them! Woe to the earth and the sea, for the devil has come down to you with great rage, knowing that his time is short.

So the dragon became enraged at the woman and went off to make war with the rest of her offspring — those who keep the commandments of God and hold to the testimony of *Yeshua*.

Who are these?

Messianic Jews: Torah of *Yeshua*

[Not Torah and *Yeshua*. He gave and loves Torah, holidays, Shabbat, dietary laws, Land, language.]

Messiah said, <sup>Mt 23.39</sup> “For I tell you, you will never see Me again until you say,

ברוך הבא בשם יי

‘*Baruch ha-ba b’shem Adonai*. Blessed is He who comes in the name of the Lord!’”

## Application #1: Not to fear rising anti-Semitism

1. There will be rising anti-Semitism.
2. Jewish salvations are all important to the future of the Kingdom. G-d loves Israel.
3. We need to chose to NOT FEAR, be bold.

	• Attempt to take the active shooter down as a last resort

**4** There was a bang and flames burnt his leg, but the 'bomb' failed to detonate

On Christmas Day 2009, Abdulmutallab travelled from Ghana to Amsterdam, where he boarded Northwest Airlines Flight 253 en route to Detroit. Abdulmutallab spent about 20 minutes in the toilet as the flight approached Detroit, and then covered himself with a blanket after returning to his seat.

Other passengers then heard popping noises, smelled a foul odor, and some saw Abdulmutallab's trouser leg and the wall of the plane on fire. Fellow passenger Jasper Schuringa, a Dutch film director, jumped on Abdulmutallab and subdued him as flight attendants used fire extinguishers to douse the flames.

**Application #3 Culture War**

**There is a commonly accepted lie in the culture that homosexuality is innate, genetic to some people. That compassion demands that we accept them as is.**

**Scientific?**

Genetics is the study of DNA sequences. 4 nucleic acids are the alphabet of life:

C A T G

Cytosine, Adenine, Thiamine, Guanine

Epigenetics is the study of heritable changes that do not involve alterations in the DNA sequence. The Greek prefix epi- (ἐπι- "over, outside of, around") in epigenetics implies features that are "on top of" or "in addition to" the traditional genetic basis for inheritance.

*[This is the key and killer issue. To many people, it seems that homosexual attraction is their innate proclivity. They were made this way. It's only a half truth. But it is a half truth.]*

*[Four colors are the four nucleic acids, guanine, cytosine, adenine, thiamine. Controlling components, alphabet of life. Determines if an organism is a fish or an elephant. All have the same DNA alphabet.]*

*Epigenetics doesn't change the underlying guanine, cytosine, adenine, thiamine. But DOES affect expressions: on/off switch. Behavior of past generations affects your tendency to behave a certain way. TENDENCY.*

*Sins of our ancestors can make a proclivity in us. BUT, ancestors added it on by willful behavior, we can overcome by willful choices.]*

Environmental stress has been shown to increase the risk of substance use. In an attempt to cope with stress, alcohol and drugs can be used as an escape. Once substance use commences, however, epigenetic alterations may further exacerbate the biological and behavioral changes associated with addiction.

*[Once aberrant behavior, hormonal activity occurs, epigenetic alterations may exacerbate the biological.]*

Even short-term substance use can produce long-lasting epigenetic changes in the brain of rodents, via DNA methylation and histone modification.

**DNA cannot be changed by behavior. But the molecules surrounding it [epi] can be changed.**

*[[http://en.wikipedia.org/wiki/Behavioral\\_epigenetics](http://en.wikipedia.org/wiki/Behavioral_epigenetics)]*

Ex 34.6-7 [ADONI] is God, merciful and compassionate, slow to anger, rich in grace and truth; showing grace to the thousandth generation, forgiving offenses, crimes and sins; yet not exonerating the guilty, but **visiting parents' offenses to be experienced by their children and grandchildren**, and even by the third and fourth generations.

G-d doesn't punish the next generation, but the sins continue.

The consequences continue.

Identical twins have identical DNA, which leads to the perceived conclusion that all identical twins are either heterosexual or homosexual. However, it is evident that this is not the case, consequently leaving a gap in the explanation for homosexuality. A "gay" gene does not produce homosexuality, rather, epigenetic modifications act as a temporary "switches" that regulate how the genes are expressed.

*[Repeat: A gay gene does not exist that causes homosexuality.]*

*Parental, ancestral behavior [porn, sin, imaginations] give the appearance of genetic proclivity. It's really epi-genetic proclivity. Time Mag May 25, 2015, epigenetic pot addiction tendency.]*

Only twenty percent of identical twins are both homosexual which leads to the hypothesis that even though identical twins share the same DNA, homosexuality is created by something else rather than the genes. Epigenetic transformation allows the on and off switch of certain genes, subsequently shaping how cells respond to androgen signaling, which is critical in sexual development.

Another example of epigenetic consequences is evident in multiple sclerosis in monozygotic (identical) twins. There are pairs of twins that are discordant with multiple sclerosis and do not both show the trait. After gene testing, it was suggested that DNA was identical and that epigenetic differences contributed to the gene difference between identical twins.
